

The Borane, Carborane and Carbocation Continuum (Hardback)

Filesize: 7.83 MB

Reviews

*Completely among the finest ebook We have at any time read through. it was actually writtern really properly and helpful. You are going to like just how the writer compose this publication.
(Mr. Deangelo Considine)*

THE BORANE, CARBORANE AND CARBOCATION CONTINUUM (HARDBACK)

To get **The Borane, Carborane and Carbocation Continuum (Hardback)** eBook, make sure you access the hyperlink below and download the document or gain access to other information which are have conjunction with THE BORANE, CARBORANE AND CARBOCATION CONTINUUM (HARDBACK) ebook.

John Wiley Sons Inc, United States, 1998. Hardback. Book Condition: New. New.. 242 x 165 mm. Language: English . Brand New Book. A comparative examination of electron-deficient species -from leading researchers in the field. The Borane, Carborane, Carbocation Continuum explores the emerging understanding of the similarities of properties and behavior shared by these electron-deficient species. Based on the work presented at a trailblazing symposium held at the Loker Hydrocarbon Research Institute of the University of Southern California, it brings together the contributions of distinguished scientists from around the world, including Nobel Prize winners George A. Olah and William N. Lipscomb, to illustrate the results of research on the structures and bonding characteristics of boranes, carboranes, and carbocations. As electron-deficient compounds find a place in today s high-field NMR systems and other cutting-edge areas, this unique volume contains important information for advanced students as well as professionals working in organic, inorganic, or physical chemistry, with sections on: Patterns of structure in boranes and carboranes -including vertex homogeneity, boron cluster patterns, and seco-systematization of boranes and heteroboranes The carborane - carbocation continuum -from boron super-electrophiles and their carbocation analogs to cage systems Untangling molecular structures -mechanistic patterns in carborane reactions, advances in metallocarborane sandwich chemistry, and other topics New species of boranes and carboranes -such as isoelectronic borane, hydrocarbon, and carbocation metal complexes, and cyclic organohydroborate anions.
