paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 260 Publisher: Renmin University of China Pub. Date :2010-08-01 version 1. The book is divided into eight chapters. namely: basic concepts. workpiece clamping and fixture design tool based on the development of machining process planning. machining accuracy. machining surface quality. a typical part processing. machine assembly process and an overview of modern manufacturing technology. This book is suitable as a vocational mechanical design and manufacturing. machinery manufacturing and automation. mold design and manufacturing. numerical control technology. mechatronics and mechanical professional teaching books. also engaged in related work as engineers and technicians of reference the book. Contents: Introduction Chapter 1. Section 1 of the basic concepts of the production process and the machining process the first two production programs and production type and classification of section 3 of Chapter 2 of the benchmark workpiece clamping and fixture design based machine tool fixture in Section 1 Overview Section 2 Section 3 of the workpiece positioning the workpiece clamping section 4 dedicated fixture design methods in Chapter 3 of the machining process order to develop the first one machining process procedures outlined in section 2. part of the process analysis of Section 3. the choice of blank Section 4 of the workpiece clamping and locating datum selection processing section 5 mechanical formulation of the first six lines of the process determine the size allowance and Section 7 process and technology dimension chain calculation of the size of the first eight devices equipped with the technology Section 9 of the choice of cutting the identification and estimation of the time scale mechanical processing section 10. the production efficiency and economy of Chapter 4. Section 1 of machining precision machining accuracy outlined...
