Reviews

A very awesome ebook with perfect and lucid information. It is really simplified but unexpected situations in the 50 % of your pdf. I am pleased to let you know that here is the greatest book i have study inside my very own lifestyle and can be he greatest ebook for at any time.
(Noah Bruen)

MULTI-AGENT SYSTEMS AND APPLICATIONS IV: 4TH INTERNATIONAL CENTRAL AND EASTERN EUROPEAN CONFERENCE ON MULTI-AGENT SYSTEMS, CEEMAS 2005, BUDAPEST, HUNGARY, SEPTEMBER 15-17, 2005, PROCEEDINGS

DOWNLOAD

Springer. Paperback. Book Condition: New. Paperback. 670 pages. Dimensions: 8.9in. x 6.0in. x 1.1in. The aim of the CEEMAS conference series is to provide a biennial forum for the presentation of multi-agent research and development results. With its particular geographical orientation towards Central and Eastern Europe, CEEMAS has become an internationally recognised event with participants from all over the world. After the successful CEEMAS conferences in St. Petersburg (1999), Cracow (2001) and Prague (2003), the 2005 CEEMAS conference takes place in Budapest. The programme committee of the conference series consists of established researchers from the region and renowned international colleagues, showing the prominent rank of CEEMAS among the leading events in multi-agent systems. In the very competitive field of agent oriented conferences and workshops nowadays (such as AAMAS, WIAT, EUMAS, CIA, MATES) the special role of CEEMAS is that it is trying to bridge the gap between applied research achievements and theoretical research activities. Our ambition is to provide a forum for presenting theoretical research with an evident application potential, implemented application prototypes and their properties, as well as industrial case studies of successful (but also unsuccessful) agent technology deployments. This is why the CEEMAS proceedings volume provides a collection of research and application papers. The technical research paper section of the proceedings (see pages 11499) contains pure research papers as well as research results in application settings while the application papers section (see pages 500530) contains papers focused on application aspects. The goal is to demonstrate the real life value and commercial reality of multi-agent systems as well as to foster communication between academia and industry in this field. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
