HPLC ANALYSIS OF IRON IN MICROCAPSULES

VDM Verlag. Paperback. Book Condition: New. Paperback. 88 pages. Dimensions: 8.7in. x 5.9in. x 0.2in. Iron deficiency is the most common nutritional deficiency worldwide. An approach to improve the situation is to fortify food with iron. The Austrian Company, GAT Microencapsulation AG has developed a food additive where iron is protected in a microcapsule (diameter 2-4 μ m). This technology preserves iron in what is called the iron (II) state, which has high bioavailability and prevents iron from reacting with any other...
