MED INC.: HOW CONSOLIDATION IS SHAPING TOMORROW S HEALTH CARE SYSTEM (HARDBACK)

John Wiley Sons Inc, United States, 1998. Hardback. Book Condition: New. 234 x 159 mm. Language: English . Brand New Book ***** Print on Demand *****.Behind the media headlines that chronicle the successes-as well as the charges of fraud, abuse, and ethical misconduct-of today s corporate medical giants lies the story of the Wall Street players who are determining the structure of our future health systems. Independent hospitals and clinics, small medical technology companies, solo practitioners, and consumers alike acknowledge that the big business principles driving the frenzy of mergers and acquisitions are bringing the long-awaited rewards of accountability and predictability to the fragmented healthcare industry. But at what cost? Sandy Lutz, a renowned medical business reporter and investment analyst, and Big Six accounting firm partners Woodrin Grossman and John Bigalke provide their insiders insights into the financial workings of Wall Street s mighty medical corporations-a class the authors refer to as Med Incorporated. With an in-depth study of the most notable leader, Columbia/HCA Healthcare Corp., plus illustrative examples of other medical giants, Lutz and her coauthors demonstrate how these Med Inc. companies excel in managing capital, information, risk, and government regulation-the four key success factors to achieving operational efficiency and market dominance. They show how the missions and operations of investor-owned companies compare with their noninvestor-owned counterparts and examine how current technological and market developments will shape the future of health systems.
